To whom it may concern,

Thanks for this opportunity to introduce myself - **CARL SOMERS**

I'm a 27 year old Australian, working as a Graphic/Web Designer for the past 7 years of my career. For the second half of the nineties, running a small design studio in Brisbane "STUDIO DIVA" specialising in corporate branding and print based design. More recently having returned from 2 years in Nth America where I was involved with web based design, GUI design and branding for local clients. Initially based in Laguna Beach - Southern California, then relocating to British Columbia to talk with Blastradius about the possiblity of joining their creative team see - www.blastradius.com

With the internet shift in mid-2000, I moved from Vancouver, BC to the mountain village of Whistler, BC. Here I soon formed working relationships with Origin Design & Communications and The Pique Newsmagazine, my role in both positions to assist as a New Media Designer - designing and building sites and interactive presentations for their existing print clients.

Below are links to these projects:

<http://www.piquenewsmagazine.com>

Since returning back to coastal Australia mid-2001, I've been working more recently as a freelance designer and making the most of being back home. Currently I'm completing a rebranding print and web package for one of my clients. Following completion in the next week or so I had planned to relocate to Sydney where I am seeking to join a design studio or continue to freelance.

Having navigated through your companies site, I'm impressed with the design and nature of the products that are being produced. Would appreciate the opportunity to find out more and to go into more detail about myself.

Thanks for your time, Kind Regards

CARL SOMERS
